## Why We Are Here

A postsecondary education – college, trade school, and other pathways – unlocks opportunities for students and entire communities. Yet for millions of underserved students, it remains out of reach. In Massachusetts, only 18% of students from low-income communities are expected to obtain a college degree within six years of high school graduation, but their peers from high-income communities are expected to graduate at rates four times that\*. This is not for lack of ambition or talent, but for lack of support.

### Our Results

ENROLLMENT

80% of OneGoal Fellows enroll in a postsecondary institution

PERSISTENCE

72% of those persist one year after high school graduation

**92%**

of district partners agree OneGoal helps them improve their students' postsecondary outcomes

## Building a Generation of Graduates in Massachusetts

Navigating the postsecondary landscape is complex, especially for first-generation students and students of color. But after 15+ years working alongside educators and students, we know what works. With OneGoal, schools make college + career planning an integral part of the high school experience.

### OneGoal

#### A class that changes futures

A 3-year model that prioritizes students in the academic middle who are often overlooked by other interventions. It starts as a class in 11th grade and continues with support through the first year after high school graduation.

### OneGoal Leadership Network

#### Leaders creating opportunity

A systems-level, multi-year path to improvement that transforms postsecondary leadership at the district level, closing gaps and increasing outcomes for all students.
