Why We Are Here

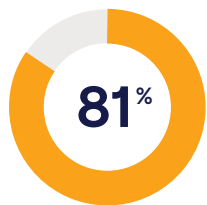

A postsecondary education unlocks opportunities for students and entire communities. Yet for millions of underserved students, it remains out of reach. In Chicago, nearly 75% of Chicago Public Schools students aspire to obtain a bachelor's degree, but only 30% of current CPS ninth-graders are projected to obtain a degree.*

Rigorously Evaluated

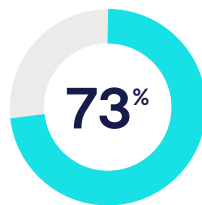

UChicago Inclusive Economy Lab conducted an independent evaluation of our impact on students' postsecondary outcomes. Researchers found evidence that OneGoal has a positive and statistically significant effect on postsecondary enrollment, persistence, and graduation.

Our Results

Enrollment

81% of OneGoal Fellows enroll in a postsecondary institution

Persistence

73% of those persist one year after high school graduation

40%

Researchers from UChicago found OneGoal Fellows are 40% more likely to graduate from college than their peers.

Building a Generation of Graduates in Illinois

Together, we can empower every student to define their own future. OneGoal helps provide effective, equitable postsecondary advising for all students.

OneGoal in the Classroom

A 3-year program that starts in high school and continues through the first year of postsecondary.

- + Delivered by an educator
- + Prioritizes underserved students from low-income communities
- + Culturally relevant teaching
- + Social-emotional + academic development
- + Inclusive of many postsecondary pathways

OneGoal Leadership Network

A multi-year path to improvement, tailored to each partner's context, with expert guidance at every step.

- + Identify each school/district's unique needs
- + Define a focused plan to expand impact
- + Learn + discuss with peers
- + Coaching + implementation support
- + Ongoing benefits for network members
