# 1.5x

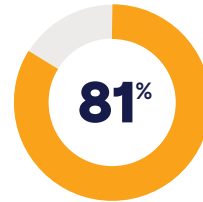

OneGoal Fellows are about 1.5x more likely to earn a degree than their peers from similar backgrounds

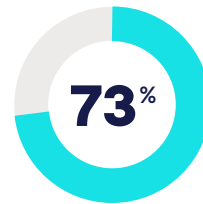

## Why We Are Here

A postsecondary education unlocks opportunities for students and entire communities. Yet for millions of underserved students, it remains out of reach. In Massachusetts, only 18%\* of students from low-income communities are expected to obtain a college degree within six years of high school graduation, but their peers from high-income families are expected to graduate at rates about four times that. This is not for lack of ambition or talent, but for lack of opportunity and support.

## Our Results

**Enrollment**  
81% of OneGoal Fellows enroll in a postsecondary institution

**Persistence**  
73% of those persist one year after high school graduation

## Building a Generation of Graduates in Massachusetts

Together, we can empower every student to define their own future. OneGoal helps provide effective, equitable postsecondary advising for all students.

### OneGoal in the Classroom

A 3-year program that starts in high school and continues through the first year of postsecondary.

- + Delivered by an educator
- + Prioritizes underserved students from low-income communities
- + Culturally relevant teaching
- + Social-emotional + academic development
- + Inclusive of many postsecondary pathways

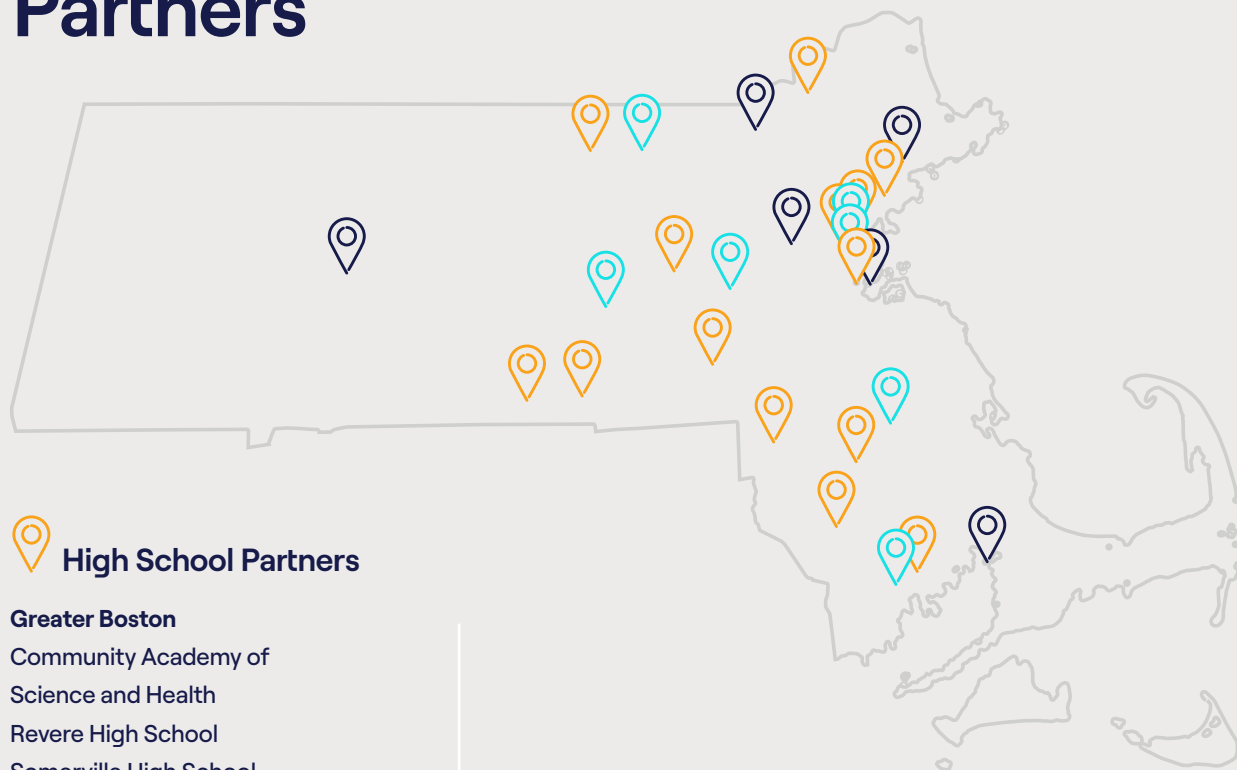

### OneGoal Leadership Network

A multi-year path to improvement, tailored to each partner's context, with expert guidance at every step.

- + Identify unique needs
- + Define a focused plan to expand impact
- + Learn + discuss with peers
- + Coaching + implementation support
- + Ongoing benefits for network members
